3 Axle Truck: 12 Tons
4 Axle Truck: 14 Tons
5 Axle Truck: 23 Tons

A federally mandated study of all County and Township bridges over 20-feet in length has determined that the safe load carrying capacity of these bridges to be less than that of a legal load. Anyone wishing to carry a load greater than these limits may apply of a Heavy Haul Permit from the County Engineer

All 150 bridges over 20-feet in length are currently being analyzed and future restrictions may be forthcoming and the public will be notified through the local media and the Lawrence County Engineer website.

Respectfully,

A handwritten signature in blue ink, appearing to read "D. Cade".

Douglas E. Cade, PE, PS
Lawrence County Engineer
